Tulip, WA 98271

Dear Ms. Sheldon,

As we come to an end of the 2018 grant year, I wanted to reach out in appreciation, and share some results from your funding—specifically, **Q3 2018 14.2**. The [REDACTED] of support to the Boys & Girls Clubs of Snohomish County's Marysville Branch from The Tulip Tribes has enabled great things for our Club and kids.

Your support of this year has resulted in a strong and robust program for our Marysville youth. Through membership and community outreach programs, over 1,100 youth in the Marysville community benefited from crucial youth development programs this year. We have continued to improve the facility in order to ensure a safe and healthy environment for our kids. New heating, flooring and plumbing was installed this past year, along with the completion of the gymnasium ceiling repairs.

Over 150 youth attended the Club each day, with over 900 members enrolled. New programs such as STEM Mentoring, InspireHer, Buffalo Wild Wings Basketball and Yoga helped bring new opportunities to our kids. Our Marysville Club implements the usual array age appropriate sports/fitness programs such as flag football, soccer and basketball, along with an 11 week summer camp that benefited over 600 youth. The Club's increasing efforts to engage our teen population resulted in a 23% increase in teen enrollment over last year, with over 250 teens participating.

I cannot thank you enough for all that you do for our kids and community. Thank you for giving our Marysville youth the support that they need to achieve great futures. Included is a program report with additional information. Please do not hesitate to reach out to me with any questions. You may also go to our website at www.bgcsc.org for additional insight and specific information on any of our programs.

We simply could not have had this extensive impact on youth without your support. Thank you for all you do for kids.

With gratitude,

Ken Salem

Healthy Habits teaches the value of making healthy life choices and promotes the importance of daily exercise. Above, youth participate in our InspireHer program and take part in yoga as an instrument for improved mental health.

Above, youth learn about our Puget Sound eco systems through our STEM Mentoring Program, sponsored with the support of the Sea Research Foundation.
