CATHOLIC HOUSING SERVICES
OF WESTERN WASHINGTON

Tulalip Tribes Charitable Contributions

Report: Q3 2019 14.2

Program: The Josephinum apartments is happy to supply this report for the [REDACTED] Tulalip Tribes Charitable Contributions award received in November of 2019. The Josephinum has continued to provide safe and affordable housing to more than 300 individuals. Many residents benefit from the support of Case Managers, who help residents stabilize in their housing. Many residents living at the Josephinum struggle with mental health, addiction and physical health issues. Case Managers work to help residents identify opportunities and access services that can improve their quality of life.

Funds Use: One hundred percent of the awarded grant was applied to costs associated with providing personalized case management for the residents of The Josephinum. Case Managers work to provide relevant onsite services that are designed to address the needs of residents. Onsite services include community-building events such as movie nights, meals, game nights, gardening, and a mobile salon for haircuts. The Josephinum houses a mental health and recovery program that residents can enroll in with the help of Case Managers. Case Managers also work with residents to identify and access services available offsite, through partner agencies. Offsite services include educational opportunities, employment readiness, financial education, and health care.

COVID-19: During the pandemic, Catholic Community Services and The Josephinum have quickly adjusted policies and practices to continue to provide important services while keeping the community and staff safe. The Josephinum has taken the following steps to keep residents and staff safe:

We have discontinued all community gatherings. Instead of community gatherings my team and I have delivered meals, face masks, care kits and sweet “check in” cards to each resident’s door.

We have activated a temporary No Visitors rule. We allow professional and medical staff into the building after they are screened for COVID by our front desk staff. Sneeze guards have been installed at each desk. Hand sanitizing stations and signage with helpful “do’s and don’ts” for COVID, on each floor and in the community spaces.

We have received many donations from the community including books, puzzles, crosswords, word find and Sudoku books to help our folks through the isolation of the pandemic.

The CCS services staff visits each and every resident at least once a week; we want to ensure they are managing through this challenging time.

We have provided free COVID testing on 4 separate occasions through our partnership with King County Public Health and NeighborCare.

The Josephinum is very grateful for the award received to support onsite case management and we look forward to an ongoing partnership in the future.
