

Funds Distribution Report

Recipient Organization:
Catholic Community Services of Western Washington

Address:
100 23rd Ave S
Seattle, WA 98144

Contact:
(206) 328-5696
<https://www.ccsww.org>

Organization's General Goals:

Catholic Community Services and Catholic Housing Services answer the Gospel call to loving and compassionate service with particular concern for the sanctity of human life from conception to natural death and the dignity of the human person. Our employees and volunteers come from many faith traditions to serve and support poor and vulnerable people through the provision of quality, integrated services and housing. Our focus is on those individuals, children, families, and communities struggling with poverty and the effects of intolerance and racism. We actively join with others to work for justice.

Date of Award:	Level:
2021 Q2	\$5,001 to \$7,500

OF WESTERN WASHINGTON

Tulalip Tribes Charitable Contributions

Report: Q2 2021

Program: The Josephinum apartments is happy to supply this report for the \$ [REDACTED] Tulalip Tribes Charitable Contributions award received in September of 2021. The Josephinum has continued to provide safe and affordable housing to more than 300 formerly homeless individuals throughout the pandemic. Many residents benefit from the support of Case Managers, who help residents stabilize their housing. Many residents living at the Josephinum struggle with mental health, addiction and physical health issues. Case Managers work to help residents identify opportunities and access services that can improve their quality of life.

Funds Use: One hundred percent of the awarded grant was applied to costs associated with providing personalized case management for the residents of The Josephinum. Case Managers work to provide relevant onsite services that are designed to address the needs of residents. Onsite services include community-building events such as movie nights, meals, game nights, gardening, and a mobile salon for haircuts. The Josephinum houses a mental health and recovery program that residents can enroll in with the help of Case Managers. Case Managers also work with residents to identify and access services available offsite, through partner agencies. Offsite services include educational opportunities, employment readiness, financial education, and health care.

COVID-19: During the pandemic, Catholic Community Services and The Josephinum have adjusted operations to continue to provide important services while keeping the community and staff safe. The majority of residents are in a high risk category of COVID, so it has been important to provide safe services.

We had activated a temporary No Visitors rule. We allow professional and medical staff into the building after they are screened for COVID by our front desk staff. Sneeze guards have been installed at each desk. Hand sanitizing stations and signage with helpful “do’s and don’ts” for COVID, on each floor and in the community spaces.

We have provided free COVID testing on many separate occasions through our partnership with King County Public Health and NeighborCare. The program also coordinated on-site vaccination clinics to provide accessibility to those who were interested.

Outcome Highlights:

- **67% of residents received supportive services and case management. (about half of our residents are “workforce” – they live here for the low-income housing but don’t require or use the supportive services or case management)**
- **71% of the 14 previously homeless/low-income residents who moved into the Josephinum in the last year have maintained housing for 6 months. The others moved-in less than six months ago. Two of our programs (Parke and Palo) have an average length of stay of 2,793 days, or 7+ years!**
- **Though the community has been transitioning out of the pandemic, the Josephinum hosted 15+ community events for residents. (Average about one per month, thanks largely to Christ our Hope church’s outreach and community event efforts.)**
 - **These events included candy/treat bags last Halloween delivered to residents, Thanksgiving meals cooked by parishioners and delivered to resident’s doors by CCS staff, etc.**
- **77-83% COVID vaccination rate in a building of 198+ residents, most with mental health issues that include paranoid delusions, which makes that number even more impressive!**
- **We’ve had three vaccine/booster clinics and two COVID testing clinics in the last year, as well as one visit from Dept of Health to perform maintenance on existing air filter systems and to deliver 12 more air filtration units.**
