Re: Report Q22014 14.2

Dear Marilyn,

We want to extend our deepest gratitude for the generous [REDACTED] grant in September 2014 for our financial assistance program that provides support for in-need schools, students served by nonprofits, and individual students so they may benefit from our outstanding education programs. We also appreciate you allowing us to leverage the donation at our annual Gala & Auction as a gift match.

Thanks to the Tulalip Tribes Charitable Fund, the Future of Flight Foundation served a total of 9,119 children of all ages in 2014. This includes the entirety of our educational programs and our A-STEM Night (an annual and free family event with a focus on STEAM professions and resources). Between January 2015 and August 2015, FOFF awarded an amount of \$5,973 in assistance which directly impacted 400 students in grades 4 through 12. A total of 10 in-need schools and youth serving organizations and two individual students (cAMP attendees) were served.

An example of who benefitted from our financial assistance program is the Northwest Indian College (NWIC). Students had the unique opportunity to experience a custom program which combined a Makerspace workshop and our Boeing Career Tour. We have attached some photos of their time in our unique classroom.

"Thank you all for such a wonderful day yesterday! We always enjoy coming out to Boeing and our students had a wonderful time. Kyle, we will use this information to continue encouraging our students to be creative. Maria, your words were very inspiration to our students and as always, the staff at Boeing and the Future of Flight are wonderful and amazing. We are so grateful! – Nathanael Davis, Program Manager, NWIC

Again, thank you for your support and we look forward to working with you again.

With best regards,
