Heartbeat 2023

Such a busy year!! Lots of collaborating with other native groups/organizations to share our developing garden and camp.

Hosted a canoe family (of about 50 people) at our camp for 3 days, during Canoe Journey. This was during the hottest part of the summer and having a large pool was greatly enjoyed by all.

Hosted classes on herbal salve making, beading, and basket weaving.

Tribal Revival this year expanded to include others sharing teachings from different tribes and thanks to our wonderful supporters we were able to serve salmon this year. (attended by 62 people)

Indigenous day, and earth day with our school partner continues to be successful events. The highlights this year were, having our young volunteer Sofia share with the children her experiences of canoe journey protocol and when Big Foot made an appearance, the children still talk about this. (attended by approx. 75 people each event)

Built a greenhouse, outdoor kitchen and picnic pavilion. Expanded the garden to create a larger medical garden, to support our local tribal members with herbs to share their teachings in herbal health.

Lots of consultation with families regarding working with schools, courts, finding native resources and gardening techniques.

Can not wait to see what the creator brings us in 2024.
