GENERAL GOALS: To provide intensive case management-adult life skills, parenting education and employment and education counseling to homeless families in an emergency shelter.

SPECIFIC USE FOR THIS AWARD:

Your grant assisted our North County Homeless Services program at Beachwood Apartments in Marysville; Arlington Triplex and Maple Leaf Meadows in Arlington; plus Lincoln Hill Village and Lervick Family Village in Stanwood. We served 148 individuals in 40 families at these sites with housing and case management services. Our goals include helping homeless and low income families increase their ability to maintain employment and also to increase their ability to maintain rental housing.

Our results for the grant year are: 98% (43 of the 44 employable adults) increased their ability to maintain employment by increasing their levels of education or employment skills.

85% (34 of 40 households) increased their ability to maintain rental housing by paying their rent on time and staying in compliance with their rental agreements.
