Hello.

Kids In Concert received ██████ in 2021 to support a college tour for our middle and high school students. Due to Covid limitations, the tour was conducted in the fall of 2022. Here are some photos and comments from our Program Director, Kirsten Branson-Meyer.

"On November 4, we took twenty middle and high school students to the National College fair in Seattle. We had to be on an early ferry and the kids were tired, but excited. For many of the students, this would be the first time they had ever spoken with a college admissions person, or had even considered college. We had two students with us who have IEPs and they did such a good job of letting the admissions person know and asking what services the school could provide for them. The kids not only collected good information, they also collected So. Much. Swag. We stayed all morning, then took the kids out for lunch and headed back to Suquamish for a rehearsal. Everyone was exhausted, but happy.

On April 27, we will be taking the kids to visit University of Puget Sound and Pacific Lutheran University. A KIC grad is in the music program at PLU and will be performing a solo in their spring choir concert."

Thank you Tulalip Cares Charitable Fund for making this opportunity available for our students, many of whom have never been exposed to college planning or considered the opportunity. It is a life changing trip that we will continue in 2024.

Christine Edwards
Executive Director
