Q3 2024 14.2

Dear Tulalip Tribes Charitable Contributions,

On behalf of Northwest Human Remains Detection Dogs I would like to express our deepest gratitude for your generous donation of [REDACTED]. Your support enabled our K-9 team to attend vital training events at the Muscatatuck Urban Training Center in Indiana, The Center for Forensic Training and Education in Ohio, and a wilderness and water training in Idaho, each of which greatly advancing our search and recovery capabilities. Our teams had the opportunity to practice and refine their skills in a variety of realistic disaster and crime scene scenarios, including collapsed and intact buildings, derelict shacks, vehicles, water, and dense wilderness. These complex and challenging environments provided a level of realism and experience that would otherwise be impossible to replicate. The lessons learned and experience gained will be critical in preparing our teams to respond effectively as we are requested by law enforcement to assist on cases over forty times per year.

This opportunity would not have been possible without your belief in our mission and your commitment to supporting first responders. The skills developed by our handlers and canines are a direct result of your generosity. This training will not only improve our team's performance but, most importantly, will enhance our ability to locate and recover the remains of victims of homicides, suicides, and fatal accidents.

We are incredibly grateful for your partnership and your investment in public safety. Thank you for your kindness and for helping to build a stronger, more prepared community.

With sincere appreciation,

John Goessman
