Funds Distribution Report

Recipient Organization:

PAWS

Address:

13508 State Route 9 SE
Snohomish, WA 98296

Mailing Address:

PO Box 1037
Lynnwood, WA 98046

Contact:

(425) 787-2500
<https://www.paws.org>

Organization's General Goals:

PAWS is people helping cats, dogs and wild animals go home and thrive—whether home is the family room or the forest. We do this by rehabilitating orphaned and injured wildlife, sheltering and adopting homeless cats and dogs, and educating the community to inspire compassionate action for animals.

Date of Award:

2025 Q4

Level:

\$2,501 to \$5,000

Tulalip Tribes Charitable Contributions Fund Report

Code: Q4 2025 14.2

Organization: Progressive Animal Welfare Society (PAWS)

Website: <https://www.paws.org>

Award Amount: \$ [REDACTED]

Total recipients impacted: approximately 10,800 animals and people served annually.

Project Summary

Tulalip Tribes Charitable Contributions funding supported the PAWS Wildlife Rehabilitation Center's ongoing efforts to provide year-round care and rehabilitation for injured, orphaned, and sick wildlife across Washington State. The grant helped sustain PAWS' 25-acre Wildlife Center which includes recovery habitats and additional space for veterinary care, conservation research, and caregiver training.

How Funds Were Used

The \$ [REDACTED] grant was used to support direct wildlife rehabilitation costs, including food, medical supplies, habitat maintenance, and veterinary care for native wildlife. Funding also supported staffing and operational expenses necessary to provide 365-day care for more than 150 species, including raptors, songbirds, black bears, and endangered Northwestern Pond Turtles.

Impact and Recipients Served

PAWS provided care to approximately 4,500 wild animals during the year. Through the Wildlife Rehabilitation Center, the organization served more than 150 species, including 244 raptors, 11 American black bears, and 2,505 songbirds. In addition, PAWS' broader programs sheltered, medically treated, and rehomed approximately 3,000 companion animals and reached more than 3,300 people through educational programming.

Outcomes

As a result of this funding, PAWS maintained its ability to respond to wildlife assistance calls within 24 hours and continued to achieve strong rehabilitation outcomes. The organization anticipates rehabilitating approximately 4,500 wild animals in 2026 and sustaining its high standard of care as demand continues to increase due to urban development and human-wildlife conflict.
