Project Beauty Share would like to thank the board of Tulip Tribes Charitable Contributions for providing us a grant of [REDACTED] for the fiscal year of 2022. During this time, Project Beauty Share was able to impact the lives of over 65,000 families throughout the state of Washington including rural and tribal communities. With the generosity of the Tulip Tribes to help cover general operating costs we were able to maintain and grow our mission to receive, sort, sanitize, and distribute over 66,000 pounds of hygiene and cosmetic products to our partner nonprofit agencies this year. Without these products many women and families we serve may suffer from poor physical and mental health causing them to miss school and work. These funds have allowed us to help women in our community thrive.

For the fiscal year of 2023 we hope to grow our received product donations by 30% and our distributed product by 20% to return to pre-pandemic numbers. To do this, we have built a strategy to encourage our community members to host Hygiene Drives at their schools, places of employment, and social groups. With this emphasis on community involvement our goal is to educate the public about the devastating impact of hygiene poverty. We are excited to see the success of this targeted approach to collecting hygiene items and the community it will build.
