**To:** Marilyn Sheldon  
**Subject:** Project Support Received

Greetings,

We are writing to acknowledge and express our gratitude for the project funding support for our "What We Could Be Project". As an organization, we are deeply grateful for the opportunity to bring this important work to middle schools and the community at large. There is much excitement in our circles for the work to begin.

Following a special Board meeting next month, we will continue coordinating with the schools and mapping out the months ahead. Again, we are thrilled to be supported in bringing this project to the community.

This past weekend, Rooted Emerging held the 3rd annual, "Council of the Animals" where we brought our "Circle Holds It All" show out for another performance, before a mixed-age audience. Please enjoy these attached photos, credit Liz Darrow.

We are also looking forward to traveling to the Tulalip Resort for the Joining Hands Celebration on October 28, 2017.

We will stay in touch to keep you informed of our progress, and of course, prepare our report at the end of the project's completion in June.

Our Deepest Gratitudes,

Vanessa Osage  
Executive Director, Rooted Emerging
