September 21, 2023

Dear Tulalip Tribes Charitable Contributions Fund,

In August of 2022, you generously awarded a grant of [REDACTED] for Medications to Safe Harbor Free Clinic. I would like to take this opportunity to share with you how we used this grant to provide services for our patients.

In 2022, we served 1134 patients in our same-day and specialty clinics. We celebrated the opening of our second clinic location in Smokey Point 1 year ago this month. Patient visits at the new location have taken time to build into a steady number each week but we are now consistently seeing 4-6 patients each Thursday evening. While this may not seem that large of a number, it is showing us that we are now reaching an expanded population of people who need access to free healthcare, many of whom are new patients to us and are immigrants to our country. As word spreads through their communities, we expect this number to increase.

7209 265th St NW, STE 203/204, Stanwood, WA 98292

The grant you awarded to us for medications has provided Shingrix, Tdap and Influenza vaccines for our patients. It has also enabled us to continue providing antibiotics for those who need them, saving each patient the cost of purchasing medications at the pharmacy.

We work diligently to provide the best patient care possible for those who come to our clinics. Having medications and vaccinations available for them is just one more way we step into the lives of people who need a “hand-up” to help them get to a place of better health which, in turn, helps them take steps toward more hope and healing in their lives.

Thank you for your generosity in awarding this grant to Safe Harbor Free Clinic. Providing medications for our patients is only possible through the financial support of organizations like the Tulalip Tribes Charitable Contributions Fund. Together, we are making a lasting impact in the lives of every person who come to us for their healthcare.

Sandy Solis
Executive Director
Safe Harbor Free Clinic
