Good Evening,

I am sending this email to submit photos from the Healing and Leadership retreat that The Lost & Found Insittute hosted. Thank you so much for providing us with the generous funding to go towards this retreat. During the retreat we were able to host sessions around power mapping, vision boarding around internal goals and we made bathtime teas for the participants to take home with them to use for self-care after the retreat. Is there anything specific you would like for us to send in for the report?
