The Following report is a compilation of 15 of the 20 separate reports for projects funded by the grant. These stories detail the assistance and methods, and cooperation used during the past two years of funding from the Tulalip Cares grant.

The Tulalip cares grant was the motivation and spark to assist an estimated 100 Tribal members to resume a normal lifestyle. The grant assisted large tribal families, and smaller families. The grant assisted the Tribal members in restoring a functional and sanitary wastewater at would be an unplanned event and substantial financial impact on the Tribal member .

All assessments, ordering of repairs and permitting when necessary were made by the Tulalip Tribal Sanitarian.

These stories are examples of both the grants ability to correct impacts to the Tribal environment band show the grants capability to need to bring back and restore what were previously deficient wastewater treatment systems. .
