Total number of visits: 4,404

Goods distributed: 132,170

Two Hearts provides free face-to-face help and support to expectant parents, babies, and children up to 5 years old. We meet the needs for diapers, formula, car seats, clothing, and other donated items. Our services are confidential and offered without regard for ethnicity or income. With the grant from Tulalip, we were able to buy much needed diapers. We gave out 107,578 diapers in 2025 and we could not have done this without your help.

Clients visit the office and receive available items. The clients are often low-income people in need of support. They represent many different ages, genders, cultures, backgrounds, and ethnicities in Snohomish County.

In addition to tangible assistance, we offer our friendship, encouragement, and referrals to other resources when additional help is appropriate. Our goal is to enable each client to meet the needs of their children and help them toward a happy, healthy future.
