**GENERAL GOALS:** Village Community Services, guided by values of respect and integrity, supports people with disabilities in achieving personal potential at home, work and in community life.

### SPECIFIC USE FOR THIS AWARD:

Francine was saying no to community activities because of the difficulty she experienced getting in and out of the cars in Village Community Services' fleet. She is now saying "yes" due to the ease of access in Village Community Services' wheel chair accessible van purchased with grant funds and individual donations. The Tulalip Tribes Charitable Fund grant helped leverage additional grants and donations to purchase three vehicles.

Also pictured is Mark, an entrepreneur who designs, makes, and sells jewelry at local boutiques. He is pictured outside of a local supplier of beads he used for his jewelry making business. His VCS vocational consultant transports him for purchasing supplies and sales.

The vehicles are used to transport approximately 150 people with disabilities per year who are served by VCS' Residential and Vocational Services programs.
