Tulalip Tribes Grant Report

Organization: Warm Beach Camp Ministries

URL: www.warmbeach.com

Code: Q2 2024 14.2

Total number of recipients impacted: 102

Warm Beach Camp would like to extend its sincerest thanks for a grant of \$██████ from the Tulalip Tribes in 2024. Your generous support allowed us to partner with the Quil Ceda Elementary School to present the program, Building Successful Learning Communities, to new 5th grade students during the fall semester of the 2024/2025 school year.

Building Successful Learning Communities is a one extended day program at Warm Beach Camp for each fifth grade class, occurring one week apart from August September through October. Five Warm Beach Camp facilitators and Quil Ceda school staff contributed to the day's instruction. Each class was broken into three small groups. By the end of the day's instruction, each small group had presented their Class Learning Agreement for the year. The day also included Tribal dance, lunch, dinner, and smores. Warm Beach Camp's goal for this project was to provide a positive outdoor learning environment and activities that foster social-emotional skills including teamwork, problem solving, and empathy.

During the grant period, Warm Beach Camp successfully achieved our goals outlined in the grant proposal including providing 3 activity days for 5th grade classrooms and served 102 students. Teachers shared students grew noticeably in their social skills with their students and their self confidence. They were enthusiastic about how this learning environment will affect their classroom.

Warm Beach Camp was honored to partner with Quil Ceda Elementary School again to offer this enriching program. Thank you for making this partnership possible and for the many ways you make our community better.
