Subject: Grant report - Q3 2018 14.2

Greetings from World Relief!

We are very grateful to have had the support of the Tulalip Tribes this year for our Refugee Kids Summer Camp.

This year, we were able to serve 40 children from 6 countries (Afghanistan, Burma, China, Iraq, Somalia, Ukraine), and provided 5 weeks of educational programming to support newly arrived refugee children as they begin to adjust to their new educational environments! Students attending the camp engaged with STEM activities, learned all about a local ecosystem and even built their own vertical gardens, practiced emotional regulation tools, gained confidence in practicing English, and built friendship with other students who they will see in the upcoming school year. Many students shared that this camp was the highlight of their summer!

At World Relief Seattle, we are committed to supporting and walking with refugees, asylees and other immigrants in vulnerable situations. Our Next Generation team will be able to follow up with campers throughout the school year to see how they are doing, and offer additional support to make sure that these children are thriving in their new communities.

I could not locate a grant report format to use to send you a formal grant report. Is this a document that you could email to me? In the meantime, please enjoy these photos from our summer camp, and thank you for your support!
