Re: **Q3 2019 14.2**

Dear Marilyn Sheldon,

On behalf of Zion Lutheran School in Lake Stevens, Washington (<http://www.zionls.org>), we thank Tulalip Tribes Charitable Contributions for the grant money that was gifted to us in the amount of \$ [REDACTED] in December of 2019!

As stated in our Proposal Summary, we needed a security upgrade for our school which included creating an exterior entrance into our office that was separate from our Kindergarten and PreSchool wing of our main building. Your contribution allowed us to add an ADA parking space directly adjacent to the door in the remodel of our school office entrance. 150 students and their families, and 25 faculty and staff are impacted by our organization, and we are grateful for this added safety feature to our school community and to have compliant parking in accordance with the Americans with Disabilities Act.

Before and After pictures of the project are included in this email.

We are delighted and honored to have received this grant for our school. Thank you again to the Tulalip Tribes Charitable Contributions for making this project possible.
